

The Dangerous Blind Spot of the Absent Mudeer

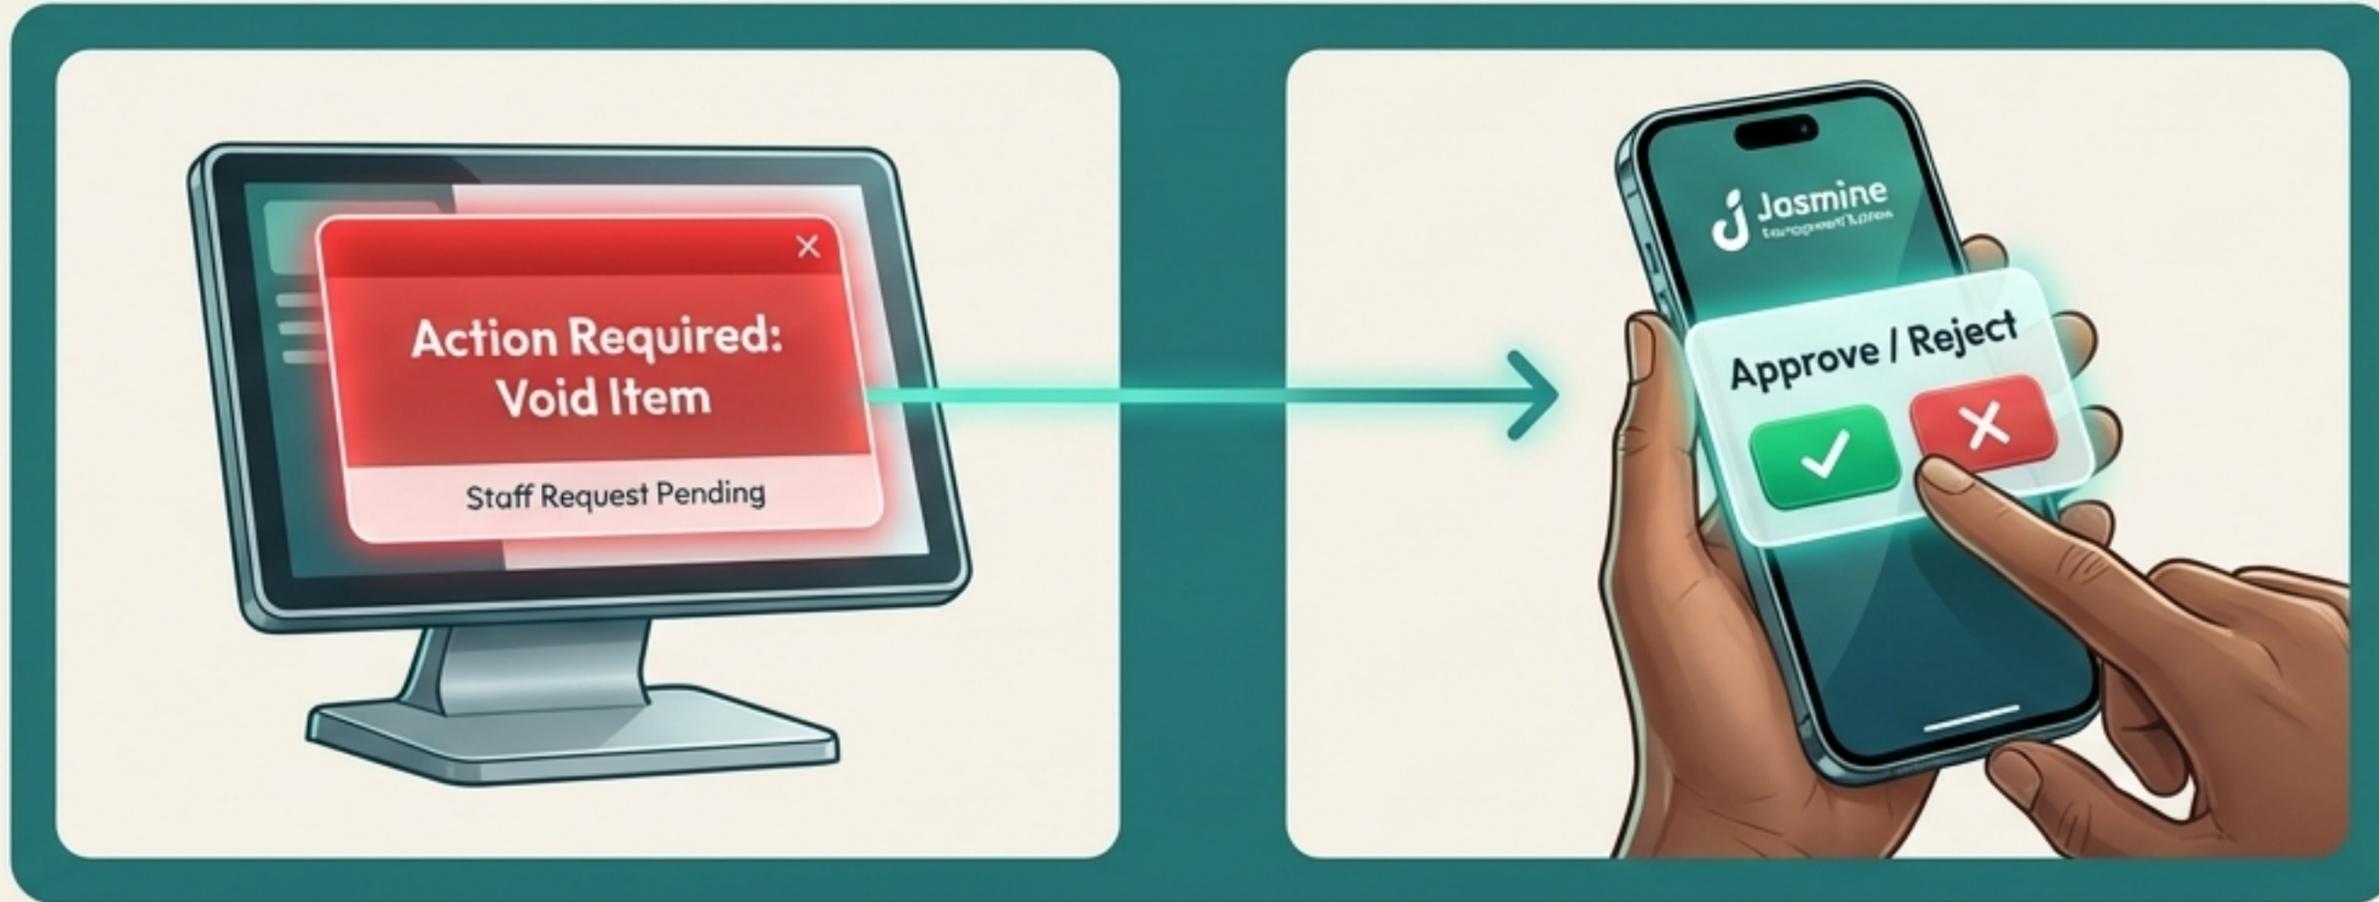

- When you leave the restaurant, total operational control leaves with you.
- Relying on frantic staff phone calls and delayed end-of-day reports hides the real truth.
- Undetected kitchen delays, unauthorized discounts, and unrecorded voids quietly drain your daily profit.

Your Restaurant in Your Pocket

- The Jasmine Manager App transforms your mobile phone into an uncompromising remote command center.
- Gain complete, unfiltered live visibility into your floor, kitchen, and cash from anywhere.
- Manage your entire operation seamlessly from the Majlis, a government office, or while traveling abroad.

Unquestioned Authority Without Being in the Room

The 10-Minute Pulse

Receive unbiased, automated operational snapshots of active orders and delays every 10 minutes.

Mobile Signature

Review and approve or reject sensitive staff requests—voids, major discounts, and reopened bills—with one tap.

Audit-Level Alerts

Get instantly notified of unusual financial activity, ensuring your team remains strictly accountable.

Defending Your Amanah from Leakage and Fees

- **The Net Reality:** Instantly separate gross sales from your actual profit after Talabat, Snoonu, and Deliveroo commissions.
- **Zero Kitchen Leakage:** Live inventory auto-syncs with every POS tap—every side dish and garnish is strictly accounted for.
- **Strict Cash Control:** Live till balances and ironclad cash-in/cash-out logs ensure perfect end-of-day reconciliation.

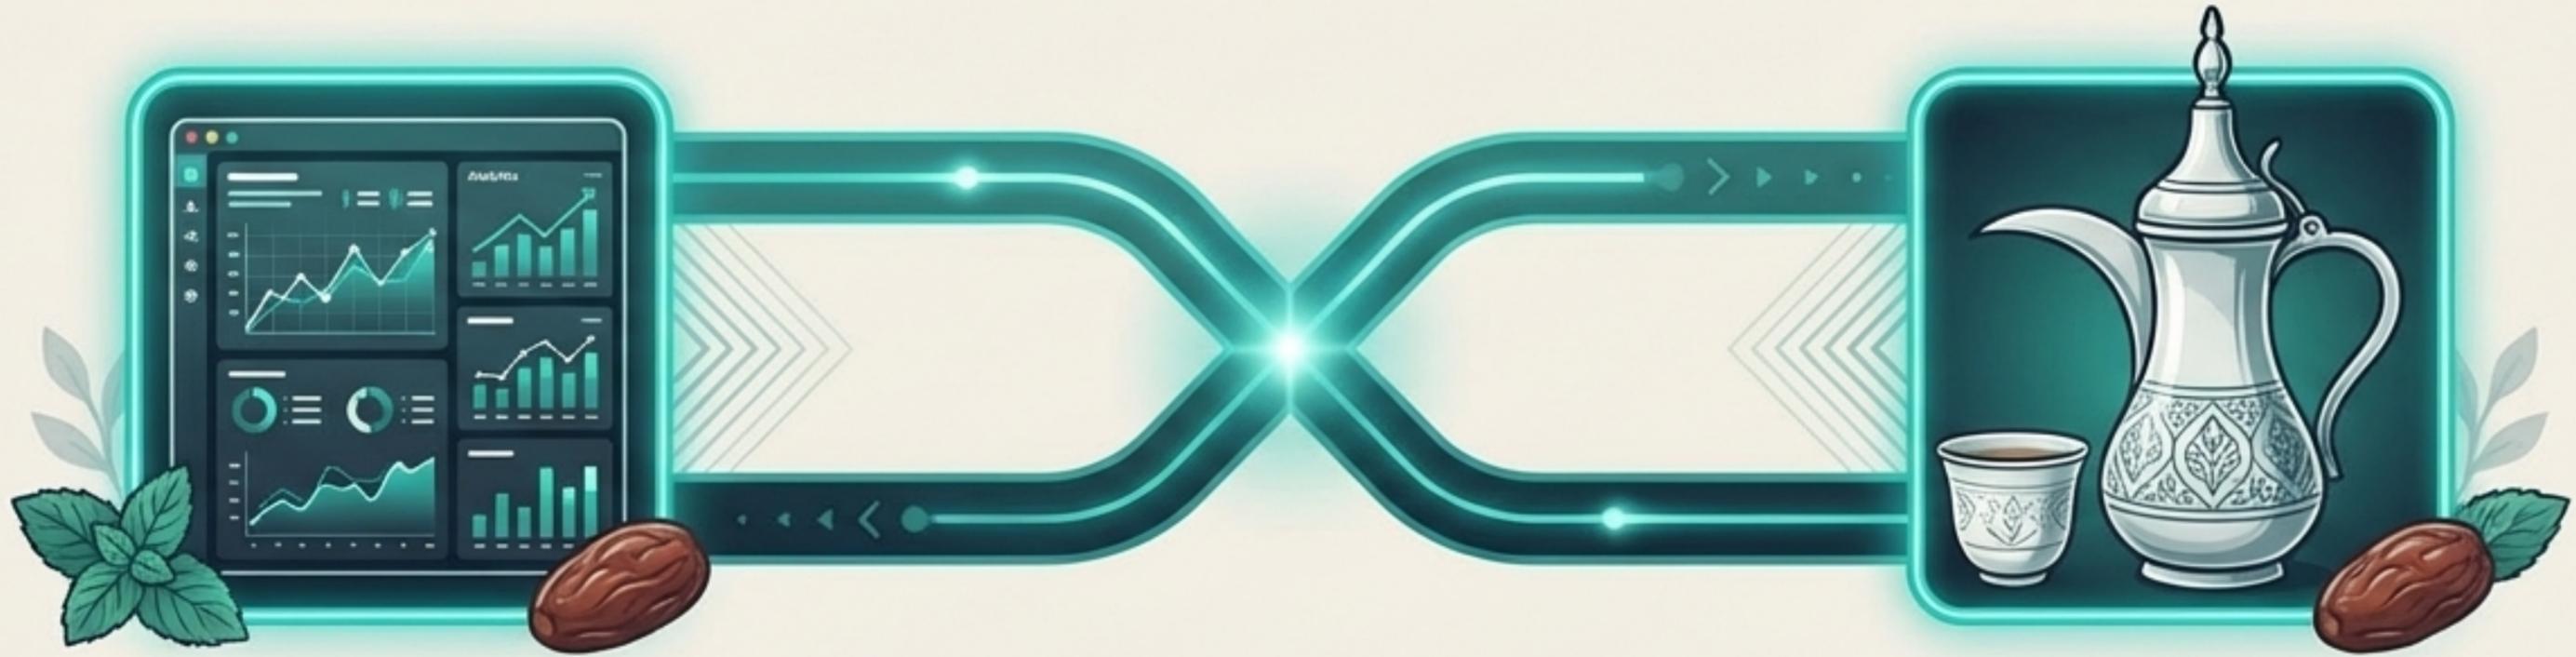

Built for the Gulf, Proven Since 2016

- We understand local reality: flawless Qatar car-side service workflows and instant one-click Ramadan menu switches.
- No chatbots, no delayed tickets—get 24/7 human support in fluent Arabic and English, even at 2 AM.
- We are not a faceless foreign software company; we operate locally, visit your venues, and stand by our word.

Global Capability Driven by Local Values

World-Class Power

Harness the analytical power of an international ERP, engineered entirely around the GCC owner's mindset.

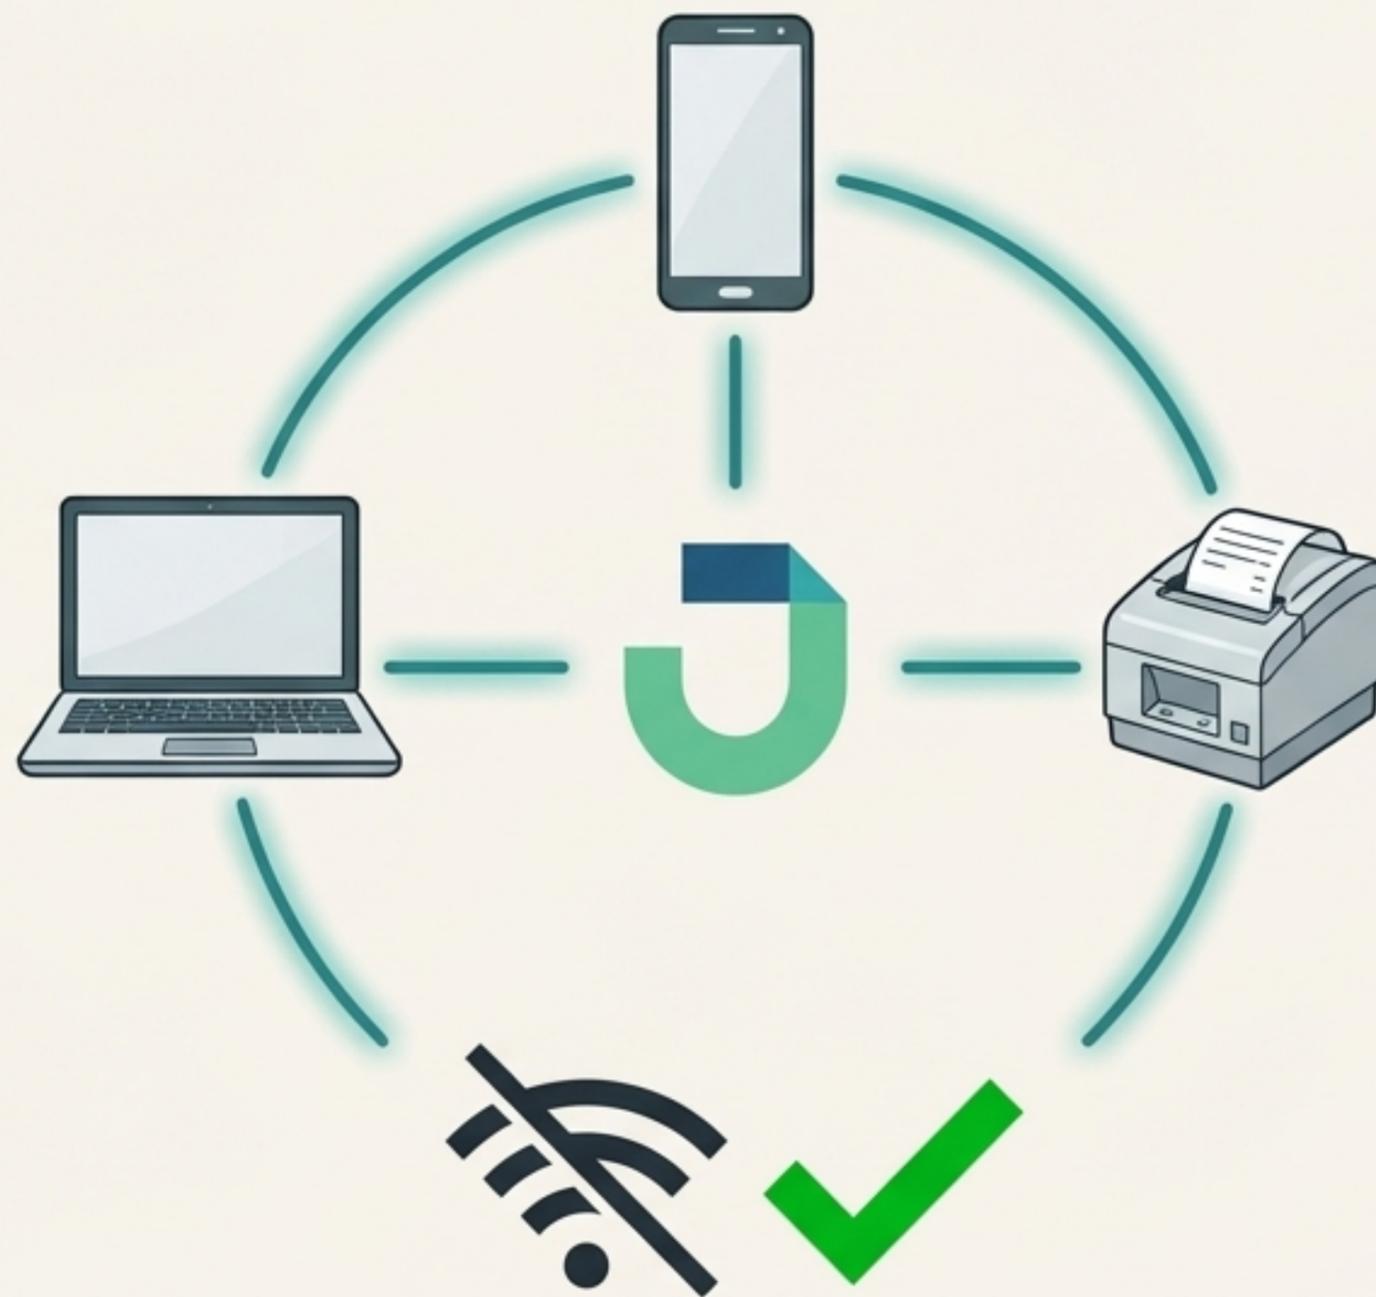

GCC Mentality

Fully bilingual (Arabic/English) across all kitchen tickets, customer receipts, and digital QR menus.

Designed for rapid onboarding so your multi-national staff can operate flawlessly from their very first shift.

Protect Your Capital with Zero Vendor Lock-In

- Run Jasmine on the Windows PCs, standard printers, and budget Android tablets you already own.
- We refuse to force overpriced, proprietary hardware bundles on our partners.
- Offline-Capable: When the internet drops, our hybrid local server ensures your POS and kitchen keep running without missing a beat.

Scale from One Outlet to a Regional Chain

- Add unlimited new branches and users under a single master login with zero extra per-branch software fees.
- **Sovereign Pricing:** Maintain centralized menu control while adapting prices and items for specific local branches.
- **B2B Mastery:** Coordinate central kitchens and manage high-value catering clients with official bilingual A4 quotations.

We Build Partnerships, Not Subscriptions

- We respect your business and your time—we come to your restaurant or your Majlis to prove our value.
- Experience a live, uncompromising demonstration of how Jasmine protects your profit and empowers your staff.
- Let us show you exactly why the GCC's smartest owners trust us with their life's work.
