Staff Management

Front Office: Smooth Service, Zero Headaches

Lightning-fast checkout, intuitive drag-and-drop floor map, instant split/merge bills. Handles Dine-in, Takeaway, and Qatar's famous Car-Side service in one screen.

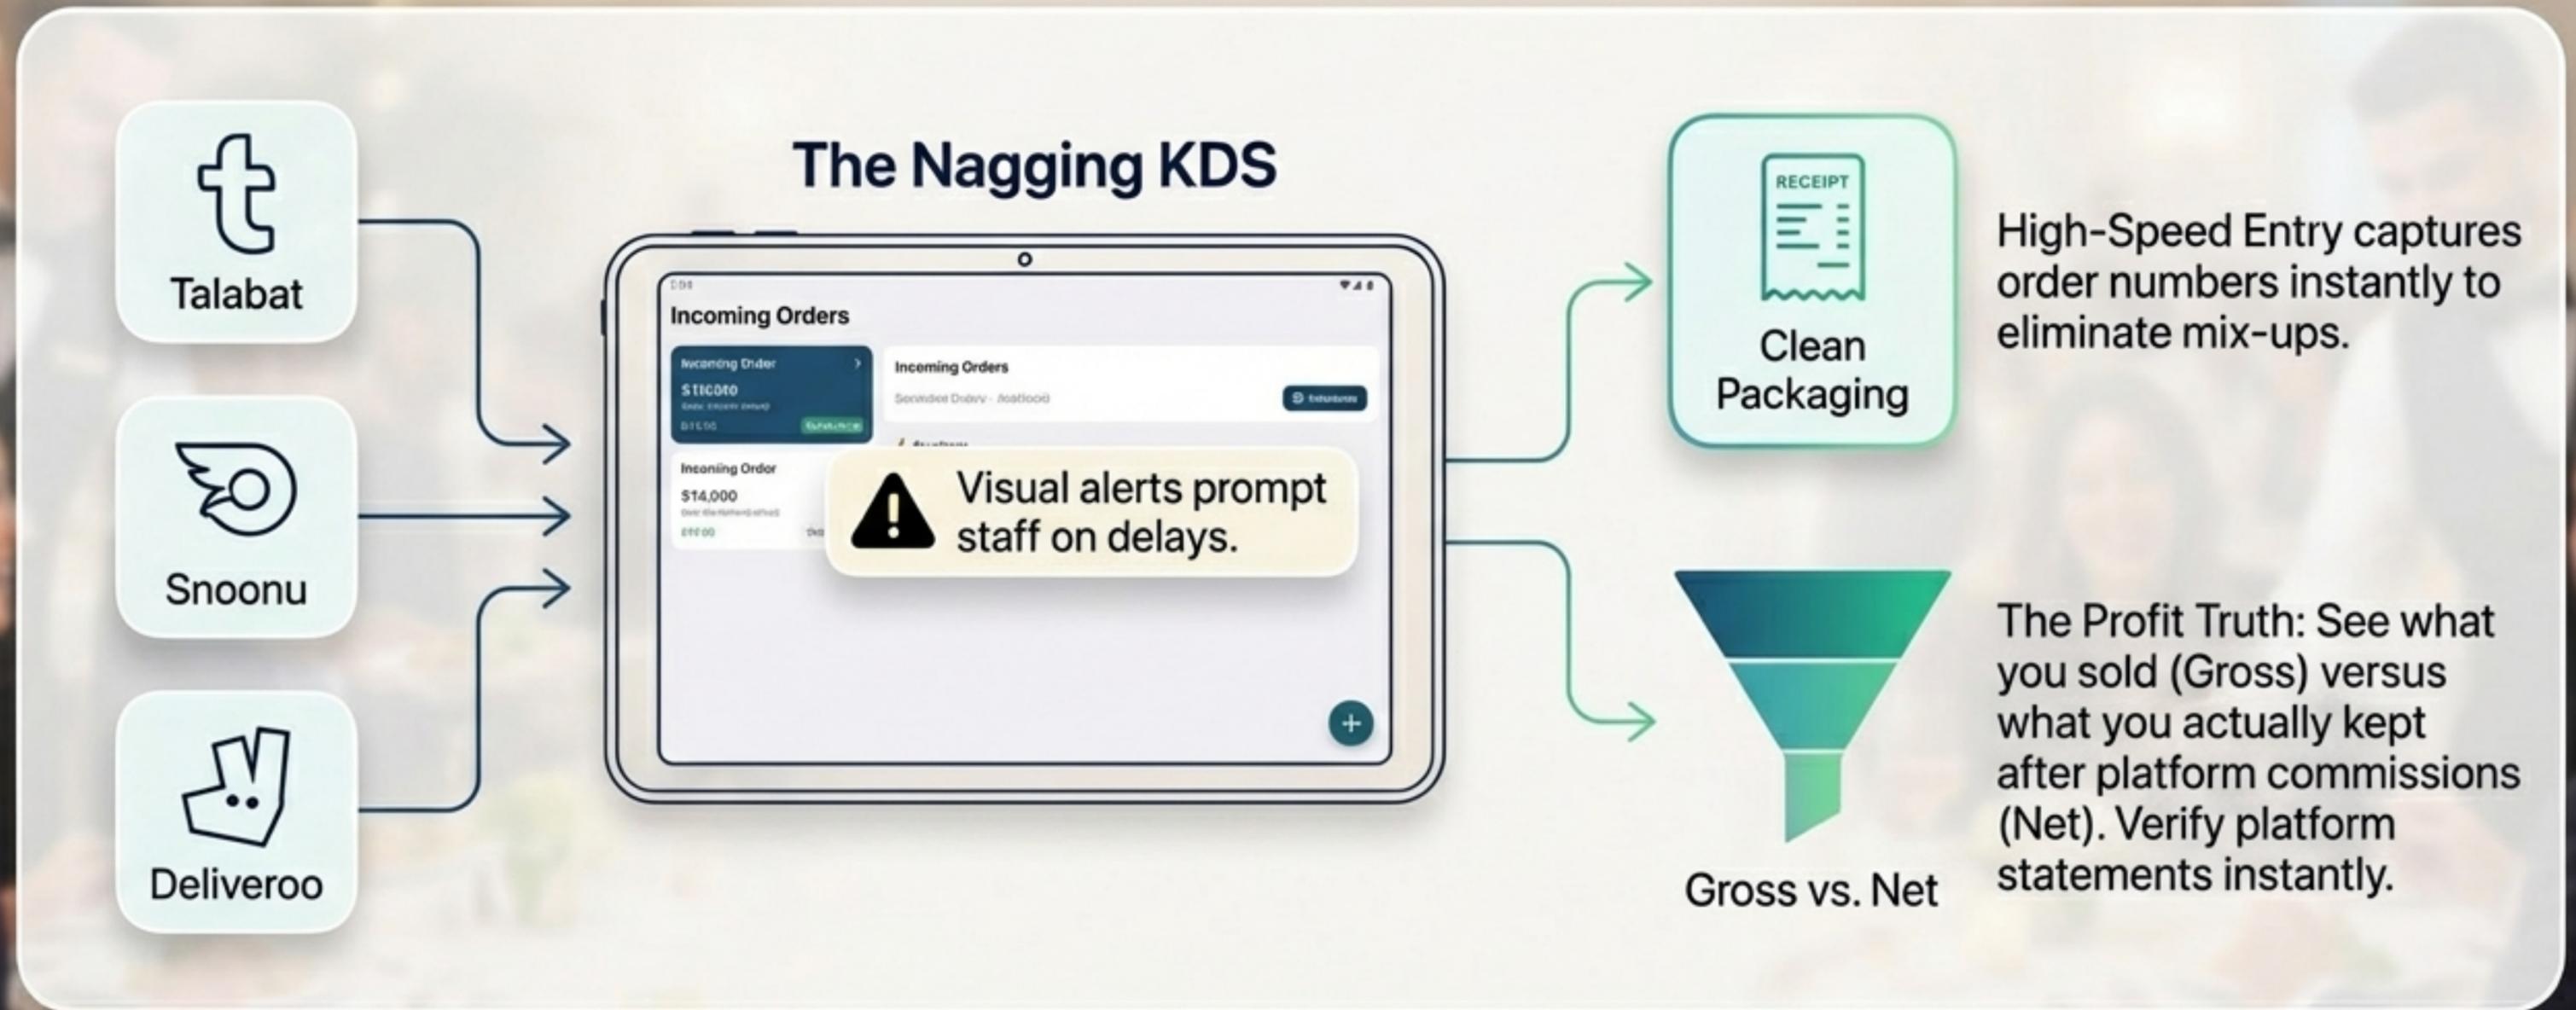

Pocket-sized power on any budget Android phone, your Waiter Pad. True one-hand operation.

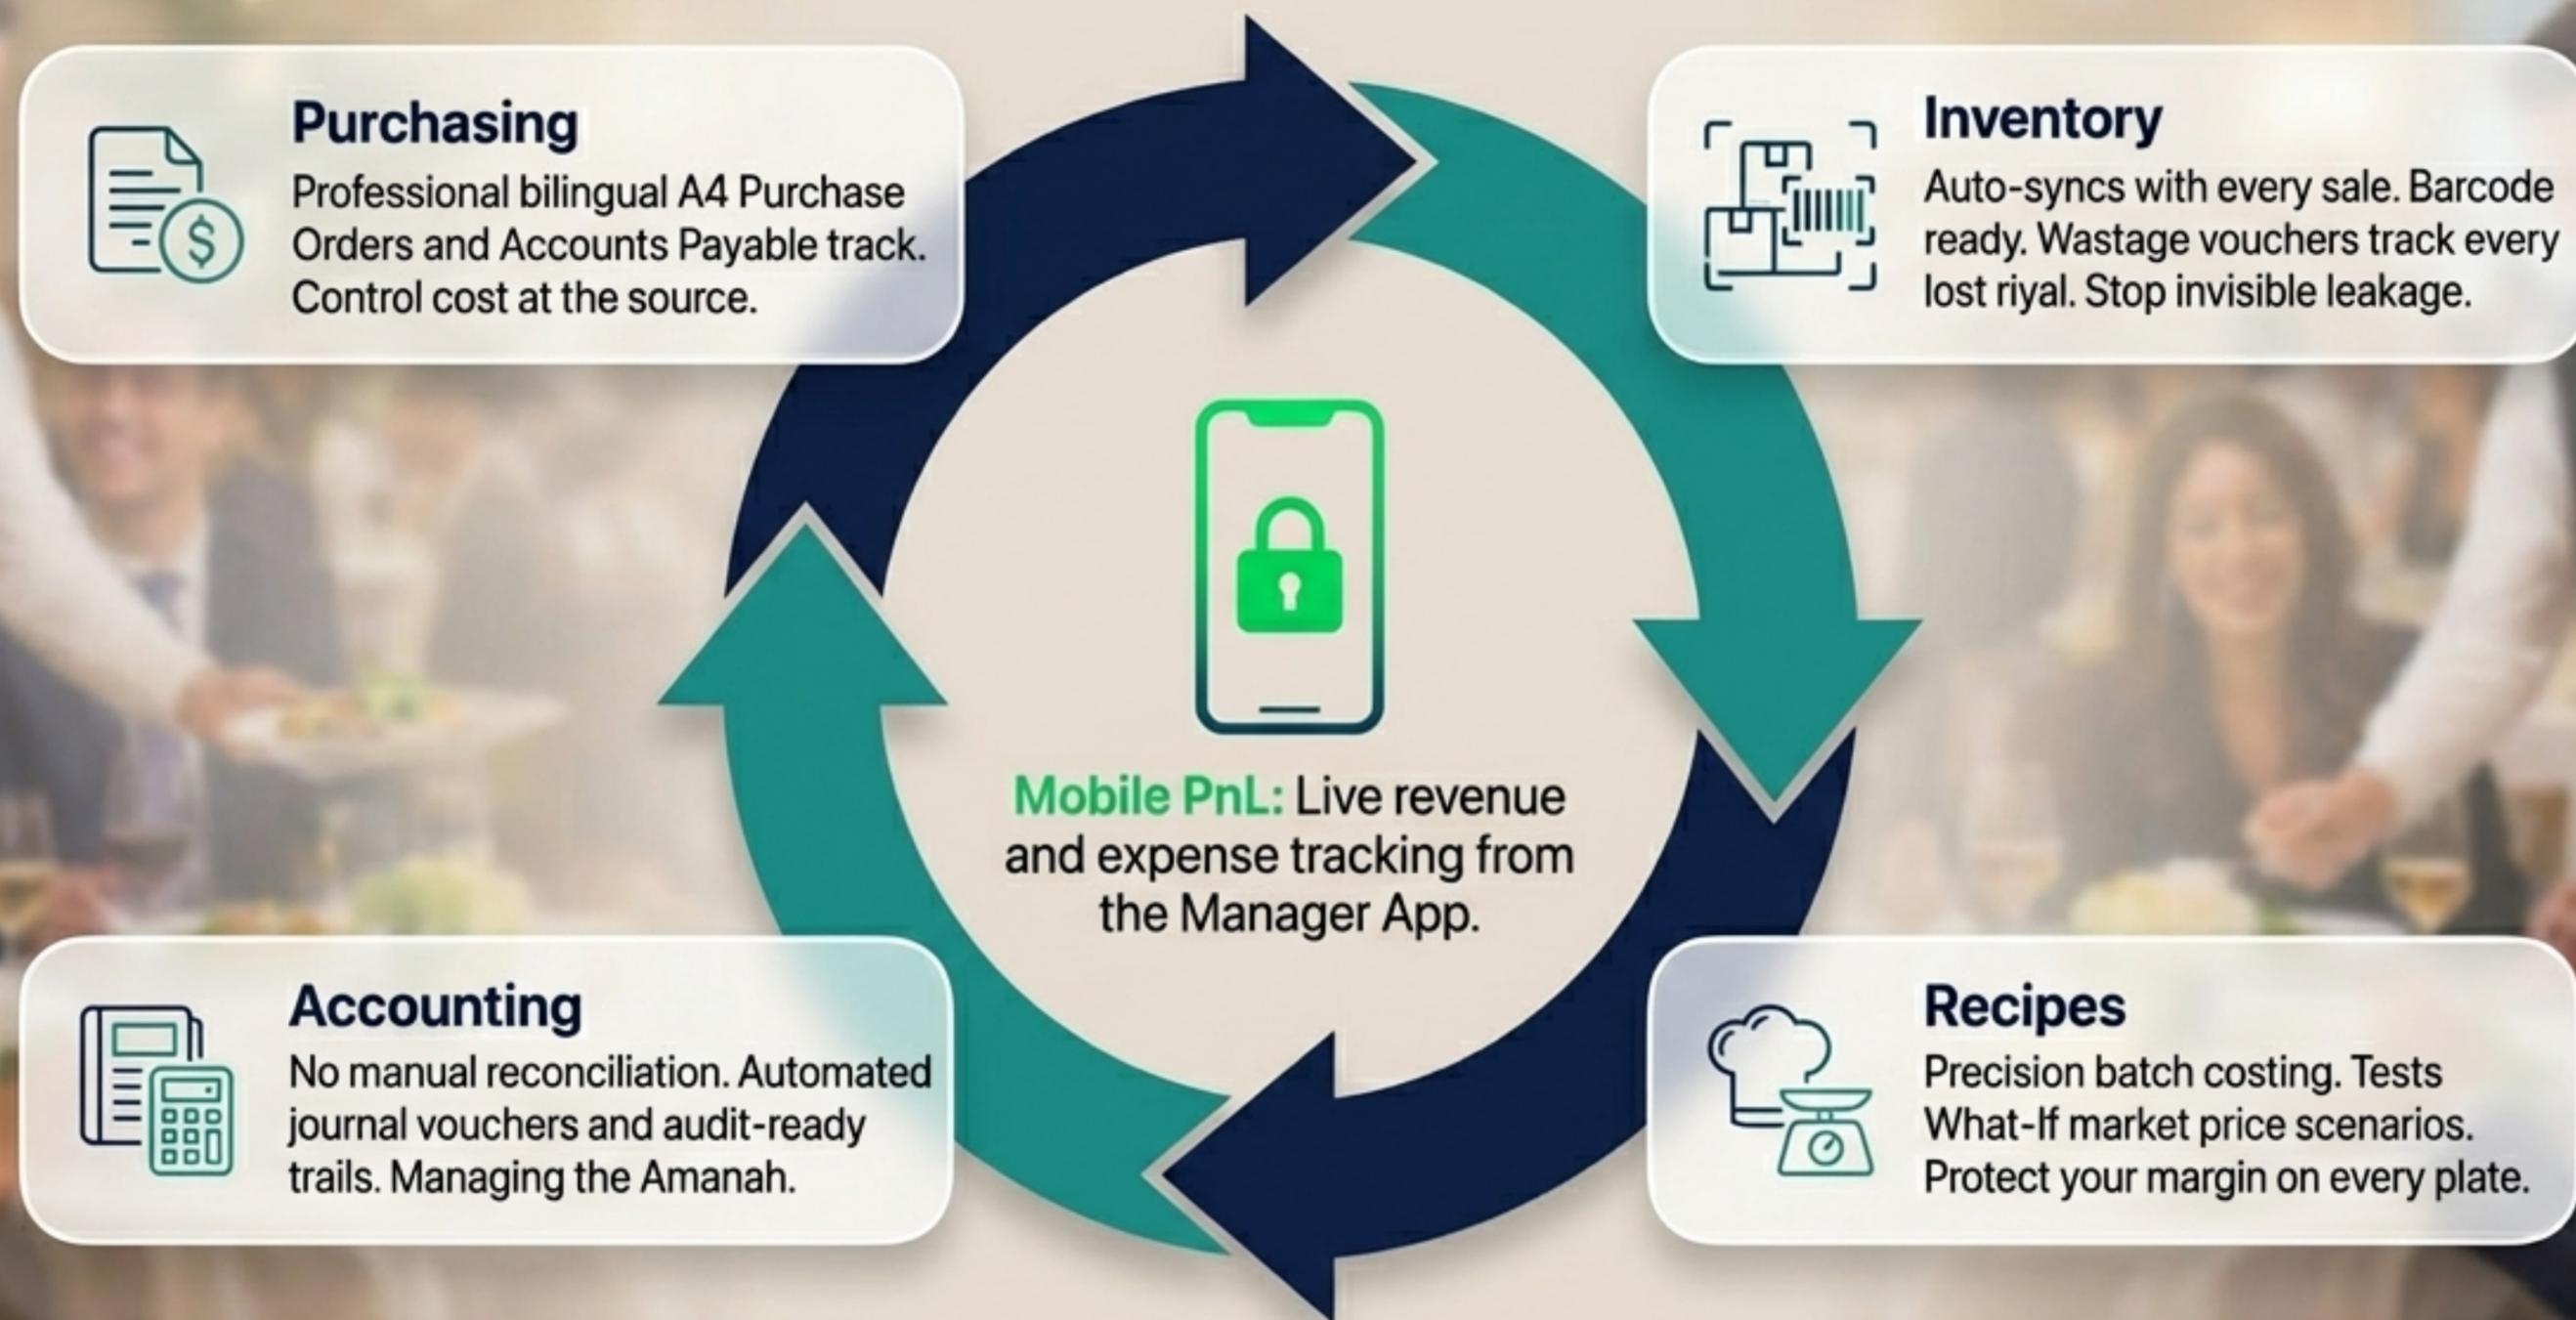

The Error Killer: Mandatory Modifier Groups force staff to select sides and cooking temps before sending, ensuring clean kitchen tickets. Fully bilingual (Arabic/English) everywhere.

Synchronize the Heat & Master Delivery

Hardware Freedom: Zero printer limits. Intelligent routing to unlimited stations included free.

Back Office: The Financial Truth of Your Empire

Scale Without Limits. Zero Per-Branch Fees.

Central Kitchen Engine:

Branches submit smart production requests. System generates one aggregated pick-list. Automates internal billing and transfers.

Staff Command:

Granular permission control (Guard of the Till). Remote credential resets from your phone. Full digital fingerprint on every void and discount.

Branch 1

Branch 2

Branch 3

Multi-Outlet & Brands:

Manage different restaurant concepts under one login. Switch brands instantly. Set global menus or outlet-specific pricing.

The Hybrid Architecture & The 10-Minute Pulse

Internet goes down?
Operations never stop.

Local speed continues.
A lightweight data pulse updates your phone every 10 minutes.
